

Akiles Offiwire 2:1 Wire Punch & Bind

The Akiles Offiwire 2:1 is ideal for light office binding needs. The Offiwire punches up to 10 sheets of 20lb paper, has hardened steel dies for a clean and precise punch every time, even when perforating delicate or hard to punch materials such as PVC covers. A strong metal chassis and high quality components guarantee durability and reliability. A side margin guide evenly centers the document and wire selector precisely determines the appropriate wire diameter to use. The Offiwire-2:1 punches a 2:1 pitch pattern and uses 2:1 pitch wire elements.

- ISO 9002 quality punch and bind system punches up to 10 sheets at once.
- With hardened steel dies for a clean and precise punch every time, even when perforating delicate or hard to punch materials such as PVC, PP and Polyester.
- The U-shape handle maximizes punching-strength, for an effortless perforation.
- Strong metal chassis and high quality components guarantee durability and reliability.
- Bilateral closer systematically and independently adjusts at either end, providing a precise and even wire closure.
- Side margin guide evenly centers the document.
- Wire selector precisely determines the appropriate wire diameter to use.
- One-year manufacturer's warranty.
