

# TOTAL DEFENSE SAFES

## Convertible, ETL Rated Fire Resistant and Waterproof

**Stack-On Total Defense safes provide protection against fire and water damage as well as securing your valuables and firearms.**

- These safes are ETL fire rated to manufacturer's specifications for 30 minutes up to 1400°F.
- In addition, these safes are ETL tested for water resistance in up to 2 feet of standing water for 72 hours. The synthetic rubber gasket on the body of the door, along with other sealants provide a waterproof seal. (Units must be bolted to the floor in order to comply with the waterproof feature.)
- UL classified Gypsum Wallboard and Palusol® door stripping are used in the construction of these safes to ensure each safe performs consistently to its ETL fire rating.
- Up to 7 LARGE, live action locking bolts and 3 solid steel dead bolts (on the hinge side of the door) provide up to 10 locking points.
- Some models include a 3-number combination lock while others have quick access electronic locks. All models include reinforced doors which resist drill attack.
- Each full-sized gun safe includes Stack-On's patented gun barrel rests and patented standoffs for scoped guns. Standoffs allow scoped guns to stand upright in the safe without taking extra space.
- Full-sized gun safes include pre-installed, carpeted interiors. Safes include adjustable shelves that can be positioned to meet your storage needs.
- Pre-drilled mounting holes in the steel bottom of the safe allow for easy attachment to the floor.

1400° Stack-On's Certified Fire Endurance Test Results

450° Paper Chars  
350° Maximum Interior Temperature of Stack-On Fire Resistant Gun Safes during the Endurance Testing.

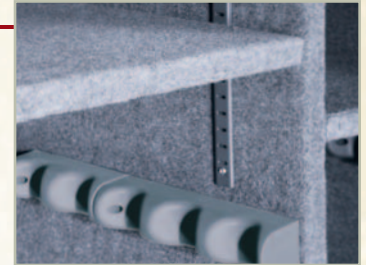

These safes are California DOJ-approved firearms safety devices that meet the requirements of California Penal Code Section 12088 and the regulations issued thereunder.

Not recommended for storing CDs or other electronic storage devices.

Stack-On's patented barrel rest standoff keeps most scoped rifles away from the back of the safe and allows for one position storage. This unique standoff can be attached to a Stack-On barrel rest and removed if your needs change.

Patented molded barrel rests, which are included with all Stack-On gun safes, won't deteriorate or compress over time. The contour of the barrel rest will accommodate rifles as well as side-by-side shotguns. Stack-On's patented barrel rests keep your guns in place.

**Palusol®** door stripping expands when exposed to high temperatures, sealing the safe's contents from harm during a fire.

Reinforced steel doors are filled with fire retardant material, creating a protective fire wall. 1" steel, tapered live action locking bolts and dead bolts on the hinge side of the door provide greater security.

Synthetic rubber gasket on the body of the safe keeps water from seeping in when standing in up to 2 feet of water.

Stack-On Total Defense safes include either an electronic lock or a 3-number combination lock, both with a reinforced hardened steel plate behind the lock to protect against a drill attack. Larger safes include a 3-spoke steel handle with rubber, non-slip handle grips.

# TOTAL DEFENSE SAFES

## Convertible, ETL Rated Fire Resistant and Waterproof

- Holds 36 guns or 18 guns plus storage or just storage.
- 7 large, live action steel locking bolts and 3 solid steel dead bolts, on the hinge side of the door, provide 10 locking points for greater security. Includes 3-spoke handle with rubber grips.
- Solid steel, reinforced pry resistant door provides greater security.
- Extra thick door frame and silk screen detail on the door give these safes a more robust look and feel.
- Interiors of the safes are fully carpeted with 6 adjustable shelves.
- These safes include Stack-On's patented gun barrel rests and patented standoffs for scoped guns. Standoffs allow scoped guns to stand upright in the safe without taking extra space.
- Bodies of the safes have a black powder coat paint finish; doors are silver gray with a black silk screen. Hardware has a chrome finish.

Not recommended for storing CDs or other electronic storage devices.

Safe must be bolted to the floor to insure waterproof rating.

### SPECS

35-1/4" wide (90 cm)  
26-3/4" deep (68 cm)  
59" high (150 cm)

### GSXW-836

#### 36-Gun Safe with Electronic Lock

- Electronic lock includes operational lights for open, low battery warning and incorrect entry. There is a time out period after 3 incorrect attempts. Batteries are accessible from the front of the safe and are easy to replace. A drill resistant hardened steel plate is located behind the lock for greater security. A trouble key is included.

### GSXW-536

#### 36-Gun Safe with Combination Lock

- 3-number combination lock with a drill resistant, hardened steel plate behind the lock provides greater security.

# TOTAL DEFENSE SAFES

## Convertible, ETL Rated Fire Resistant and Waterproof

- Holds 28 guns or 14 guns plus storage or just storage.
- 5 large, live action steel locking bolts and 3 solid steel dead bolts, on the hinge side of the door, provide 8 locking points for greater security. Includes 3-spoke handle with rubber grips.
- Solid steel, reinforced pry resistant door provides greater security.
- Extra thick door frame and silk screen detail on the door give these safes a more robust look and feel.
- Interiors of the safes are fully carpeted with 6 adjustable shelves.
- These safes include Stack-On's patented gun barrel rests and patented standoffs for scoped guns. Standoffs allow scoped guns to stand upright in the safe without taking extra space.
- Bodies of the safes have a black powder coat paint finish; doors are silver gray with a black silk screen. Hardware has a chrome finish.

Not recommended for storing CDs or other electronic storage devices.

Safe must be bolted to the floor to insure waterproof rating.

### SPECS

29-1/4" wide (74 cm)  
25-1/2" deep (65 cm)  
59" high (150 cm)

### GSXW-828 28-Gun Safe with Electronic Lock

- Electronic lock includes operational lights for open, low battery warning and incorrect entry. There is a time out period after 3 incorrect attempts. Batteries are accessible from the front of the safe and are easy to replace. A drill resistant hardened steel plate is located behind the lock for greater security. A trouble key is included.

### GSXW-528 28-Gun Safe with Combination Lock

- 3-number combination lock with a drill resistant, hardened steel plate behind the lock provides greater security.
